

# PLANNING YOUR PROJECT USING WEAVER'S TRIANGLE

## Overall Aim of Project

We aim to enable young people, aged 11 -18 from Oban and the surrounding areas, to reduce their alcohol consumption, by providing educational, diversionary and preventative activities.

We aspire to help young people improve the quality of their lives.

## IMPACT / OUTCOMES for the project

- Increased confidence
- Reduced anti-social behaviour
- Increased personal development and social skills
- Improved relationships between peers and with the wider community
- Reduce young people's alcohol consumption

## OUTPUTS / ACTIVITIES for the project.

- Continue opening youth café drop-in 3 nights a week.
- Involve at least 25 young people in a new Saturday Night Initiative
- Run issue based groups that will benefit 30 young people during the first year
- Run school holiday programmes for 11 weeks during the year
- Develop football and sport sessions
- Run an introduction to youth work course for fifth year pupils, starting September 2009
- Start a young school leavers' afternoon drop-in session
- Update some equipment and resources within the youth café
- Develop and run 3 staff training workshops for youth café staff and other agencies
- Staff will undertake challenging behaviour training
